**HEALTH CARE IN DANGER**  
**A MATTER OF LIFE & DEATH**

ICRC

# Health care in danger

**Improve delivery and security of  
effective and impartial health care  
in armed conflict and  
other situations of violence.**

ICRC

# At the core...

- Health care must not be attacked, obstructed or abused
- Wounded / sick have a right to health care

ICRC

## Data collection: (Jan 2012 to July 2014)

### Main patterns of violence

The ICRC collected 2375 incidents affecting health-care in more than twenty contexts facing an armed conflict or another emergency:

1. 90% of incidents collected affected local health-care providers;
2. 52% of incidents took place against, inside or within the perimeter of health-care facilities;
3. People were killed, wounded, beaten, threatened, robbed, subject to obstruction and other types of violence.

ICRC

# Right to health

- Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity

ICRC

# Health and violence

- "a state of complete physical, mental and social well-being and not merely the absence of disease
- "the intentional use of physical force or power, threatened or actual, against oneself, another person, or against a group or community, that results in injury, death, psychological harm, maldevelopment or deprivation" (WHO)

# Consultations

Issues	
<u>Military practice: from training to operational orders</u>	
<u>RC/RC Societies response to HCD</u>	
<u>Ambulances and pre-hospital services</u>	
<u>Responsibilities and rights of health-care personnel</u>	
<u>The physical safety of health facilities</u>	
<u>National legislation and penal repression</u>	
<u>Civil society: mobilizing opinion and religious leaders</u>	
Non-State Armed Groups	
Health Care Ethics	

ICRC

# Values in humanitarian ethics

- **HUMANITY** to promote the dignity, protect the life and integrity of any person acting humanely in every circumstance
- **Impartiality**
- **Neutrality**

ICRC

# Ethical Principles

**How to make legal protection of the wounded and sick, health care personnel, facilities and transports more effective?**

**How to legally protect medical ethics and confidentiality?**

ICRC

# Recommendations

## Medical ethics and confidentiality

- Reaffirm the necessity to **protect medical confidentiality as an abiding principle**. **Exceptions** should be **limited** and specifically circumscribed in domestic legislation;
- Ensure **training** for health-care personnel to apply and respect their ethical duties, particularly for **resolving ethical dilemmas**

ICRC

# Ethical Principles

**Health-Care ethics do not change in times of conflict**

If professionals have conflicting loyalties,  
their primary obligation is to the beneficiaries
