Congress**

Patients

Health workers

Health systems

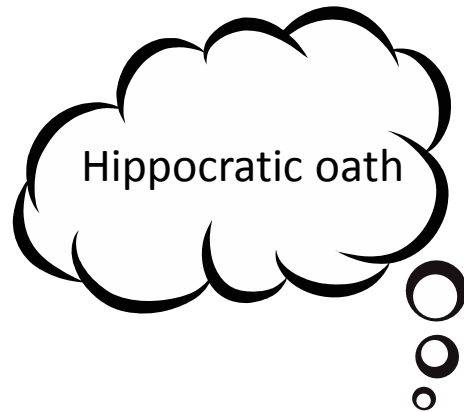

The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition.

Circumstances: Conflict

*A world in which all medical students
unite for global health and are equipped
with the knowledge, skills and values to
take on health leadership roles locally
and globally*

1.3 million medical students worldwide

1. Through providing Trainings

3. Through Advocacy

2. Through changing medical education

3. Through Advocacy

Summing up

- **Health is a right of Everyone. No matter their social conditions**
- **We must train and prepare our future health workforce with the right skills and competencies**
- **We must safeguard the sanctity of health and health care provision**
- **Students, patients, and health workers have a crucial voice in creating change**
