

embracing  
carers

**EMBRACING CARERS** is a movement advised by eight caregiver organizations which aims to highlight the unmet needs of caregivers on a global and country level, empower them to advocate for their own health and well-being, and drive calls to action for support of caregivers worldwide.

### Mission Pillars

**Stakeholders:** Support capacity building and collaboration of organizations to support caregiver initiatives

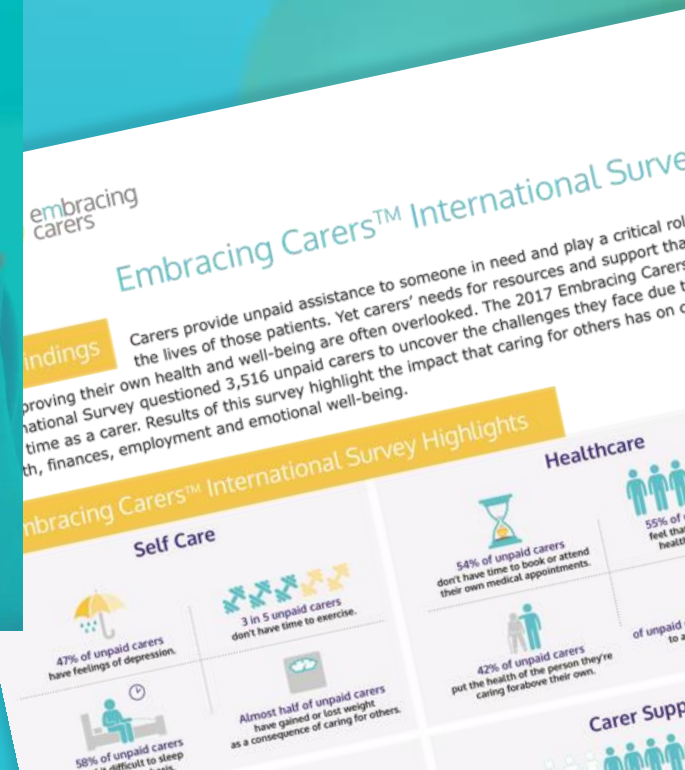

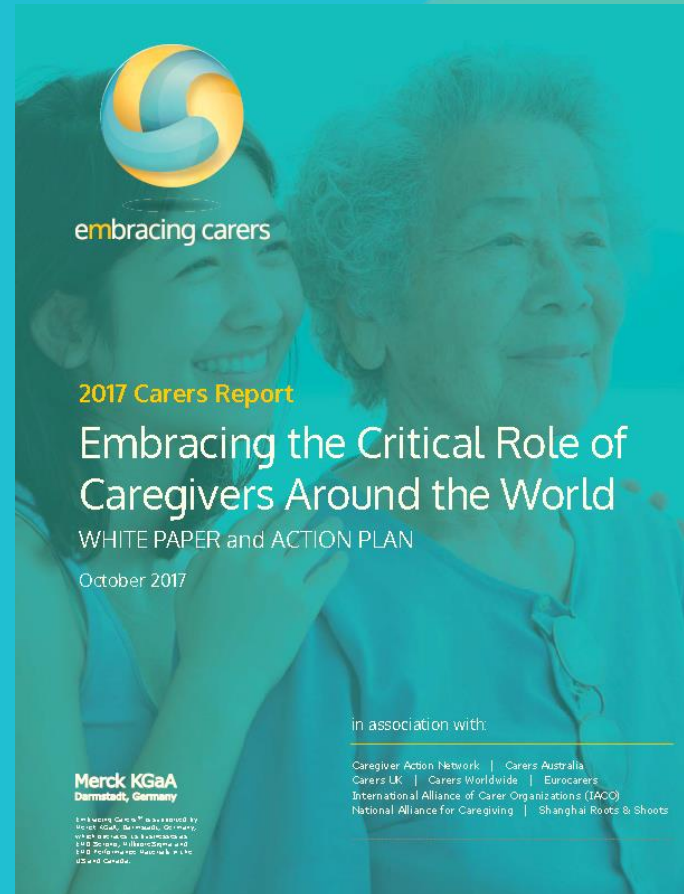

**Awareness:** Increase awareness and the global discussion of caregivers by activating and highlighting the unmet needs of caregivers through media and digital platforms

**Policy:** Drive policy focus, legislative action and visibility among policy makers, governments and international public health organizations

**Health Care Systems:** Create innovative opportunities to integrate caregiver support and resources throughout the spectrum of care
